## DISCLAIMER: ABOUT TEMPERAMENT EVALUATIONS

Please be advised that the temperament evaluation scores provided by Big House K9 are intended to serve as informative tools offering insights into the personality traits of the assessed puppies. These evaluations reflect their temperament up to the point of assessment. However, it is imperative that you collaborate closely with Daneesha & Brandon, our experienced professionals, for personalized guidance when selecting a puppy.

It is important to acknowledge that while these evaluations provide valuable information, a single aptitude test cannot comprehensively encompass all the variables that contribute to a dog's temperament. Factors such as environment, socialization, and training can significantly influence a dog's behavior over time.

Nevertheless, this report aims to equip you with a substantial understanding of the temperament traits exhibited by each puppy and how they may align with your individual requirements and lifestyle.

Our ultimate goal at Big House K9 is to ensure that every dog finds a suitable placement where they can thrive and forge a meaningful and harmonious connection with their new family. We are committed to empowering you to make informed decisions about your puppy selection.

Additionally, we strongly emphasize the importance of initiating training for your puppy immediately upon bringing them home. Proactive training not only helps prevent behavior issues but also strengthens the bond between you and your new companion. Please do not wait until you encounter a problem before starting training.
